To Whom It May Concern,

It is with great enthusiasm that I recommend Malek Hammoud for admission to your university program or as a candidate for your organization. During his time as a co-op student at Bryck Technologies, Malek consistently demonstrated exceptional intelligence, dedication, and technical expertise.

Malek is a highly skilled software developer proficient in tools and frameworks like Git, Node.js, React, PostgreSQL, and SQLite. He successfully led the development of a full-stack application that will be deployed in production for a 20+ person company, showcasing his ability to deliver high-quality work. Malek excelled in collaborative environments, contributing to daily accountability meetings, breaking down tasks effectively, and utilizing tools like Storybook for prototyping.

I am confident that Malek's intelligence, adaptability, and passion for software development make him an outstanding candidate for any program or role. Please feel free to contact me at william.favaro@bryck.ca or 226-236-5337 for further information.

Sincerely,
